

# CATARRH DESTROYS THE KIDNEYS

Was Miserable---Could Not Stand Up or Walk---  
Pe-ru-na Cured.

Many Persons Have  
Catarrh and Don't  
Know it.

Mr. James M. Powell, 633  
Trost street, Kansas City,  
Mo., Vice Grand of I. O.  
O. F., of Cherryville, Kans.,  
writes:

"About four years ago I  
suffered with a severe  
catarrh of the bladder, which  
caused continued irritation  
and pain. I was miserable  
and could not stand up or  
walk for any length of  
time without extreme  
weariness and pain. I be-  
gan taking Peruna and it  
greatly relieved me, and in  
eleven weeks I was com-  
pletely cured and felt like  
a new man."—James M.  
Powell.

Hundreds of Dollars Spent in  
Vain.

Mr. Cyrus Hershman,  
Sheridan, Ind., writes:  
"Two years ago I was a  
sick man. Catarrh had set-  
tled in the pelvic organs,  
making life a burden and  
giving me little hope of re-  
covery. I spent hundreds of dollars in  
medicine which did me no good. I was  
persuaded by a friend to try Peruna. I  
took it two weeks without much improve-  
ment, but I kept on with it and soon began  
to get well and strong very fast. Within  
two months I was cured, and have been  
well ever since. I am a strong advocate of  
Peruna."—C. Hershman.

Peruna cures catarrh of the kidneys,  
liver and other pelvic organs, simply be-  
cause it cures catarrh wherever located.

JAMES M. POWELL.

No other systemic catarrh remedy has as  
yet been devised. Insist upon having Pe-  
runa. There are no medicines that can be  
substituted.

If you do not derive prompt and satisfac-  
tory results from the use of Peruna, write  
at once to Dr. Hartman, giving a full state-  
ment of your case and he will be pleased to  
give you his valuable advice gratis.

Address Dr. Hartman, President of The  
Hartman Sanitarium, Columbus, Ohio.

## INSCRIPTION TOLD THE TRUTH.

Certainly Those in the Cemetery Had  
"Come to Stay."

Some years ago the board of direc-  
tors of a cemetery in Chester county,  
Pa., was considering the plans for an  
elaborate gateway. Three of the direc-  
tors, who were wags in a way, had  
the greater part of the work on their  
shoulders. One evening they met at  
the office of one of the members, at  
which time the plans were discussed.  
Among other things they wanted to se-  
lect a proper inscription for the gran-  
ite arch. One of the members sug-  
gested the word "Welcome." "No,"  
said another, who had a more serious  
turn of mind, "the inscription ought to  
be 'Resting in the Lord.' " "Perhaps  
they're not," said the remaining mem-  
ber, "so I would most respectfully sug-  
gest 'We've come to stay.' "

## SUICIDES ON "BLUE MONDAY."

Good Reason for Housewives Being in  
Sad Spirits.

A scientist who has made a study of  
suicides has discovered that more wo-  
men commit suicide on Monday than  
on any other day of the week.

Monday, "Blue Monday" as it has  
long been called, is one of the most  
trying days of the week for women  
who are housewives, principally be-  
cause it is "washday." Breakfast is  
usually served earlier than on other  
days and more hastily prepared. The  
children are early hurried off to school  
and dinner is often "picked up." "Blue  
Monday" is the one day in the week  
when a housewife's troubles, hard  
work, and annoyances seem to come  
all at once. Hence the significant  
name for the first working day of the  
week.

## Locusts in Cyprus.

In Cyprus peasants are paid 40  
pounds for every ton of locust eggs  
they destroy. In some years as many  
as 60,000 tons are destroyed, which  
means that some 600,000,000 locusts  
have been cheated of their chance of  
existence. But still they come, and  
recently the locust swarms were ac-  
tive as ever.

Piso's Cure is the best medicine we ever used  
for all affections of the throat and lungs.—Wm.  
O. Edwards, Vanburn, Ind., Feb. 10, 1909.

Radium as a Stimulant.  
A correspondent of the Scientific  
American recently passed through a  
peculiar experience. He tasted a small  
fraction of a grain of radium. It acted  
as a powerful stimulant, affected  
both the heart and kidneys. It was  
several hours before his pulse became  
normal. It affected the mind also, pro-  
ducing hallucinations.

Veteran Exhibits Gratitude.  
Thomas Trahey, a civil war veteran,  
of St. Louis, has placed a monument  
over the grave of the Sister of Charity  
who nursed him through an illness  
during the war.

## WESLEY AND CHRISTIAN UNITY.

Helped to Lessen Bitterness and Draw  
Good Men Nearer Together.

It would be unjust to ignore what  
John Wesley did for Christian unity.  
Religious differences were more man-  
ifest in his day than in ours. Mac-  
nally often exaggerated, but he did not  
exaggerate in describing the old-time  
country squires whose "animosities  
were numerous and bitter. He hated  
Frenchmen and Italians, Scotchmen  
and Irishmen, Papists and Presbyte-  
rians, Independents and Baptists,  
Quakers and Jews." It did not re-  
quire much provocation for a mob to  
pull down a dissenting chapel or throw  
stones at a Roman Catholic priest. In  
this world of fierce denunciations  
and a scholar who gladly acknowledged  
his indebtedness to good men of wide-  
ly different tenets. Wesley had learned  
a good deal from the early fathers,  
he had read the great divines of the  
Church of England, some of his warm-  
est friends were Moravians, he admir-  
ed the saintly characters of the Ro-  
man and of the individual Catholic  
church, his sympathies, naturally  
quick, had been broadened by read-  
ing. Since De Maistre warned the Ro-  
man church not to forget the claims  
of her Anglican sister, since the Evan-  
gelicals gave new force to the Church  
of England, since the Oxford divines  
made dry bones live, many lessons  
have been learned. An increasing num-  
ber of persons is gradually awakening  
to the difference between the faith  
once delivered to the saints and the  
opinions which merely date from Au-  
gustine or Calvin. John Wesley was  
in advance of his time. Should organic  
unity come within a century or two,  
he will be counted among those who  
helped to lessen bitterness, and to  
draw good men nearer together.—The  
Living Church (P. E.).

## BRAIN WAS STILL WORKING.

Conductor's Eyes Were Poor, But He  
Was Not Useless.

As the conductor received the fares  
he gently scratched each coin on the  
edge with the nail of his forefinger.  
"Is that some new good-luck sign  
that you are working?" asked the man  
who rides on the platform and asks  
questions.  
"No; but I'll tell you what it is,  
though. It's one way of beating the  
company. The fact of the matter is,  
I am getting old. The company does  
not know how old I am. If they did  
they'd fire me mighty quick. Then  
where would I be? I am getting so  
old my sight is falling fast. If I put  
on glasses it would be a giveaway on  
my age. I can't tell by sight whether  
a coin is a quarter or a nickel, nor  
the difference between a new one-cent  
piece and a dime; so I just scratch  
the edge."

## Salaries of Legislators.

Congressmen of the United States  
are better paid than any other legis-  
lators, receiving \$5,000 a year, mil-  
lions and stationery funds. Australia  
allots its senators and members of  
the house of representatives \$2,000 a  
year without distinction. New Zea-  
land differentiates. The duties of the  
lower house being of a more exacting  
description than those of the upper,  
its members receive \$1,200 annually,  
as against \$750 paid to those of the  
other assembly. Senators of the Can-  
adian parliament are rewarded with  
\$1,500 a year salary and expenses at  
the rate of \$10 a day during the ses-  
sion, with a maximum of \$1,500. Cape  
Colony is not so open-handed, its leg-  
islative council and house of assembly  
drawing \$5 a day per man.

## Characteristics of Plants.

Times at which different plants  
open and shut their petals have been  
investigated, and it is commonly  
found that the hour varies according  
to the amount of moisture in the air.  
The main thing is to protect the pol-  
len from invading moisture, and since  
some plants, such as the pimpernel,  
promptly close their petals on the near  
approach of rain, they serve as weath-  
er glasses. Some plants seem to believe  
in a short day's work, the pimpernel,  
for instance, opening at 8 in the morn-  
ing and closing at 2 o'clock in the  
afternoon, the goatsbeard, on the  
other hand, doing business from 3 a.  
m. to 10 p. m.

## One Thing More Needed.

An English scientist has succeeded  
in condensing beer into a tabloid form.  
One tablet dissolved in a glass of  
water, it is claimed, will produce as  
good beer as that served in the public  
houses. If the "scientists" can invent  
a vest pocket refrigerator to go along  
with the tabloid beer the new product  
may prove a success. But warm beer,  
even in tabloid form, will not appeal  
to a great many persons.

## A NEW ROUTE.

The Road to Wellville.  
It is by change of diet that one can  
get fairly on the road to health after  
years of sickness, for most ill health  
comes from improper feeding.

What a boon it is to shake off coffee  
sickness and nervous headaches  
as some can if determined upon.

One woman accomplished it in this  
way: "A few years ago I suffered  
terribly from sick and nervous head-  
aches being frequently confined to my  
bed two or three days at a time, the  
attacks coming on from one to four  
times in every month. I tried  
medicines of all kinds but  
could get no real relief until my par-  
ents finally persuaded me to quit the  
use of coffee altogether and try Pos-  
tum Food Coffee. It had come to a  
point where I was so utterly miser-  
able that I was willing to make any  
reasonable trial.

A person couldn't believe what fol-  
lowed but the results speak for them-  
selves; that was two and a half years  
ago and I have never tasted coffee  
since. I use Postum not only for its  
delicious flavor but more for the good  
it has done me. All of my troubles  
disappeared as if by magic and I have  
for the past two years been doing all  
the work for my family of six. I  
seldom have even a slight headache  
and I would not give up my Postum  
and go back to coffee now unless I  
deliberately intended to commit sui-  
cide.

"All of my neighbors it seems to me  
now use Postum in place of coffee and  
some of them have been doing so  
for several years with splendid re-  
sults from the health point of view."  
Name given by Postum Co., Battle  
Creek, Mich.

the famous little book, "The Road to  
Wellville."

## Directory Curiosities.

The London Directory contains more  
than four pages of "Browns" in its  
commercial section and another page  
in the court portion. But the "Smiths"  
put even this fine record into mere in-  
significance, monopolizing no fewer  
than nine pages all to themselves.  
"Harry" and "John" being responsible  
for a column each. Nearly eighteen  
pages are occupied by public-houses,  
six being all that are required for  
bakers' shops.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn  
that there is at least one diseased person (who is  
known to be a sufferer from Catarrh of the Bladder)  
who has been able to cure in all its stages, and that is  
Catarrh. Catarrh of the Bladder is the only disease  
now known to the medical fraternity. Catarrh  
being a constitutional disease, requires a constitu-  
tional treatment. Hall's Catarrh Cure is taken in-  
ternally, acting directly upon the blood and inner  
surfaces of the system, thereby destroying the  
cause of the disease, and giving the patient  
strength by building up the constitution and assisting  
nature in doing his work. The proprietors have as-  
sured much faith in its curative powers, that they offer  
one hundred dollars for any case that it fails to cure.

## Kissing Law in Serbia.

The Serbians have a curious cus-  
tom of giving a parting kiss to their  
deceased friends before final burial,  
and the observance of it has caused  
a serious epidemic of diphtheria. The  
police prefect of Belgrade has accord-  
ingly issued stringent orders against  
the custom, prohibiting it for the pre-  
sent, however, only in case of those  
persons who have died from that  
malady.

## PITNAM FADELESS DYES are fast to light and washing.

The Poor of the City.  
A slum inspector told the Glasgow  
municipal commission on the housing  
of the poor that on some occasions he  
had found families sleeping in tiers  
—the parents on the floor, then a mat-  
tress, and a layer of children on the  
top.

flammation, allays pain, cures wind colic, etc. A bottle.

## Legal Hat Wren.

Three learned Supreme court jus-  
tices sitting in appellate term, in  
New York, have decided that there  
are "no rules of etiquette that re-  
quire a man, while eating in a so-  
called quick lunch restaurant, to take  
off his overcoat and hat." This deci-  
sion was the outcome of an appeal  
taken from the judgment of the mun-  
icipal court for \$44.40 in favor of Lewis  
Harris, who alleged his overcoat was  
stolen while he was eating in a lunch  
room. The court held that he had  
not used proper care in hanging up  
his coat.

## LITERARY NOTES.

Country Life in America for Sep-  
tember is one of the most attractive  
issues of that beautiful magazine that  
has yet been published; the photo-  
graphs which illustrate almost every  
article being especially fine. Thomas  
Dixon, Jr., the well known novel-  
list, has a glowing bit of word  
painting in "The Shore of West  
Virginia." Another article that is  
strikingly appropriate is "The Peach  
and Some Suggestions About Growing  
It."

World's Work for September is re-  
plete with entertaining articles cover-  
ing the richest phase of the world's  
activities, among them being "The  
American Influence in Mexico," by  
Eugene P. Lyie, Jr., "Thirty Years of  
Italian Progress," by a celebrated au-  
thor, and Israel Zangwill's brilliant  
discussion of "Zionism and the Fu-  
ture of the Jews." There is also an  
interesting article from the pen of Pro-  
fessor Franklin T. Baker of Colum-  
bia university on "The Model Prepara-  
tory School."

There are now in the United States  
at least ten different kinds of agencies  
for the benefit of the American  
farmer, and the department of agricul-  
ture alone has over two thousand per-  
sons engaged in scientific in-  
vestigations looking toward im-  
provement in the quality and  
quantity of farm produce. This  
great educational work is re-  
viewed for the Youth's Companion by  
the Hon. James Wilson, secretary of  
agriculture—one of the many impor-  
tant announcements for the 1903 vol-  
ume of that paper.

## A Real Compliment.

The bishop of Manchester, whose  
fighting speeches in the house of lords  
on the education bill were so much  
commented on, was in his youth a  
skilled boxer. He tells a tale of how,  
when he was young, he had a cousin  
at Harrow, a sixth form boy, who  
prided himself much on his boxing.  
The bishop was persuaded by the lad  
to put on gloves and test his skill.  
The result of the contest was that the  
Harrowian was soon vanquished, when  
he remarked admiringly: "It is a  
pity you are a parson; you would have  
done for the ring."

## Married by Telephone.

In order to throw their pursuers off  
the scent, W. P. Randall and Miss  
Minnie Brown, an eloping couple from  
Louisia, Virginia, went to different  
towns. At Buffalo, W. Va., Randall  
obtained a minister, and rang up his  
betrothed a hundred miles away on  
the telephone. Then with a witness  
at each end the couple were married.

Immune to Mosquitoes.

While occupants of palace and cot-  
tage in New Jersey, Staten Island and  
parts of Long Island cage themselves  
within wire screening to escape the  
song and bite of the malarious mis-  
chievous mosquito, thereby shutting off  
half of their supply of air, the cook-  
ladies and maids sit on the lawn, on  
the back stoop, on the fence, or on  
the curbstones, in company of their  
"steadies," apparently oblivious of the  
clouds of the pests that swarm about.  
I have just been "put wise" as they  
say in toughdom. They are immune.  
No mosquito would dream of inject-  
ing his proboscis into their cuticle.  
They rub their skin with an oil made  
from grass that grows in Ceylon and  
Singapore, and the mosquitoes, objecting  
to its fragrance, keep off. This is a  
common oil used in many soaps and  
perfumes. Our society friends may  
have to come to it.

University Comparisons.

There are almost as many univer-  
sity teachers in the United States as  
there are university students in the  
United Kingdom. The number of pro-  
fessors and instructors at the univer-  
sities and colleges included in the list  
of the United States commissioner of  
education is 17,000. The number of  
students in British universities and  
university colleges is only about 20,  
500.
